Computer Psychological Testing Consent (AssessMD)

Your providers at Central Texas Mental Health utilize a specific Computer (iPad) Psychological Test called AssessMD, which is important in assisting him/her in determining a diagnosis, prognosis and treatment plan for you. Your physician may repeat the test at upcoming follow-up visits, this will aid in determining your progress. As it is a courtesy to file with your insurance, this test is usually covered by most major insurances and could be covered by your co-pay depending upon your plan benefits. However, depending on your plan benefits, the testing could apply to your deductible.

The insurers 1) Seton 2) Optum/United Health 3) Value Options 4) Humana (some plans) 5) Magellan may not cover this benefit, and patient will be responsible for the cost. In the event insurance does not cover the service, the cost will be assigned to the patient. Our Front Desk will tell you the costs of your visit (including any Testing fees) and should you have any specific questions regarding claim processes, or payments, ask our Front Desk Staff. Our billing department is available upon request as well.

By signing below you consent to the testing and payment responsibility of AssessMD Computer Psychological Testing.
